Supporting Statement and Documents

To be considered for this position please describe how your knowledge, skills and experience meets the criteria detailed in the person specification for the role. Please also provide any other information that you consider relevant to your application, including your salary expectations.	<p>Dear Sir/Madam</p> <p>This is an exciting opportunity to practice my knowledge and skills of software engineering gained through academic studies over the last few years. I believe the optional courses that I had chosen during my academics such as Neural Networks & Genetic Algorithms and Robotics has significantly impacted my skills in Artificial Intelligence and its crucial techniques like working with big data as well as data collection and feature attraction.</p> <p>In fact, I have also implemented mentioned approaches in my final year project that was based on measuring car driver behaviours using their phone sensors and APIs. I have attached this project to my CV.</p> <p>During the scalable software engineering module, I practised my skills in cloud computing and its services such as working with virtual machines, connecting to the cloud database and deploying websites on the cloud.</p> <p>I believe this is a perfect opportunity to start my career in software development as a Graduate Software Engineer with a company that offers the opportunity for talented individuals to work with highly skilled professionals.</p>
---	--

	<p>Additionally, I have achieved success in the projects (attached in CV) at university that involved both the front and back-end parts of the development and have been involved in group projects. I am confident that my skills and passion for learning new technologies would also make me a perfect match for this role.</p> <p>The CV is attached for your review, and I look forward to hearing from you.</p> <p>Sincerely,</p> <p>Preetpal Singh</p>
